Syllabus: CS175 Recitation Section

Course Number: CS175

Course Title: Introduction to Computer Science II

Instructor: Richard Scherl

Office: Howard Hall B-23

Phone: 571-4457

Email: rscherl@monmouth.edu

Web: bluehawk.monmouth.edu/~rscherl/

Class Times: Mondays 10:00, 11:00, or 1:00 (depending on the section)

Class Location: HHL512

Office Hours: 3:00–7:00; Mondays, Other times by appointment.

Text: Problem Solving with C++: The Object of Programming (Fourth Edition) by Walter Savitch.

Attendance: College policy allows one week of classes to be missed without penalty.

Goals of the Course: Introduce the basics of programming in C++ as well as problem solving skills. The recitation section will in general not introduce new material. Rather it will concentrate on working through examples (e.g., developing programs in the class) that illustrate aspects of C++ introduced in the lectures.

Special Accommodations Students needing accommodations are encouraged to see me during office hours or to make a specific appointment to discuss their needs. Students with disabilities who need special accommodations for this class are encouraged to meet with me and/or the appropriate disability service provider on campus as soon as possible. In order to receive accommodations, students must be registered with the appropriate disability service provider on campus as set forth in the student handbook and must follow the University procedure for self-disclosure, which is stated in the University Guide to Services and Accommodations for Students with Disabilities.

Quizzes There will be a quiz every other week starting with the second class. At least 6 quizzes will be given. Only 5 of the quizzes will be counted. The quiz dropped will be the one with the lowest grade or a missed quiz. No make-up quizzes will be given. For excused absences only, special grading arrangements will be made.
